Compudopt's Mission:

To provide technology access and education to under-resourced youth and their communities. Their programs serve to eliminate limited access to computers, facilitate growth in technical and digital literacy skills, help provide no or low cost high-speed internet options and support the future of youth and their communities.

Compudopt's program model repairs and refurbishes these tools, keeping them out of landfills and giving them a second life with a young learner without access to technology at home.
